Calhoun- has someone mowing the property, it is on a contract for deed.

Blue house- county cannot do anything until next year. Property owner still owns the property. City can go through the process of the cleanup and put a levy on the property. There is a catch 22 with this scenario. If the property went in forfeiture, the property would have the option to purchase but the levy would be lost.

Residents on Daily lake road want it fixed up. This is a minimum maintenance road. This is also a shared road with Kettle River Township.

Partitions for both bathrooms are around 6000. We will look into other options.

Motion to adjourn by Tim Johnsen.
